

General information

Handy 30

The benefits of the **Handy 30**

Mobile & portable

Lightweight and compact design makes it easy to carry and operate on-site.

No post-processing required

Delivers clean, permanent results instantly without any extra finishing steps, saving valuable time while ensuring consistent high-quality markings for every application. This makes your workflow more efficient and eliminates unnecessary manual handling.

Long battery life

Work continuously for 6 to 8 hours on a single charge, perfect for production environments, warehouses, or field service. The reliable and durable power supply ensures uninterrupted productivity and efficiency, even during the most demanding shifts.

Flexible marking possibilities

Ideal for QR codes, logos, serial numbers, barcodes, and automatically generated text. This flexibility lets you handle a wide range of customer requirements and adapt easily to different industries.

Applications

The Handy 30 is suitable for a wide range of industries: from manufacturing and machinery to logistics and service operations. With its high marking accuracy and user-friendly operation, it guarantees professional results every time. Its compact design allows for easy integration into different work environments, while the durable construction ensures long-term reliability. This makes the Handy 30 a versatile choice for both intensive daily use and specialized marking tasks.

Specifications

General	
Marking area	75 x 75 mm
Min line thickness	0,1 mm
Weight	6 KG
Weight of head	1,3 KG
Power Supply	230 V/ 50hz
Battery	24 V LiOn
Laser class	Classe 4 laser

Laser source	
Power	30 W
Wavelength	1064 +/- 5 nm
Lifetime laser	> 100.000h
Cooling	Air cooled
